Athens Plaython: Inclusive
Urban Play

Case Study 3

LUDI: a Network of Play for
Children With Disabilities

A group of students are playing a game on a large green lawn. In the foreground, a boy in a grey and green jacket is crouching low to the ground, holding a white card. To his right, another boy in a camouflage t-shirt is also crouching, looking at a card. In the background, a boy in a blue tracksuit is standing and looking towards the left. A girl in a pink shirt is also visible in the background. The lawn is scattered with white cards. In the far background, there is a long building with a red-tiled roof and a white wall, surrounded by trees.

Case Study 3

 Play for Children With Disabilities

TD COST Action TD1309

Play for Children With Disabilities

A multidisciplinary network of 30 countries and 100 researchers & practitioners, belonging to the humanistic & technological field.

Study the topic of play for children and teenagers with disabilities

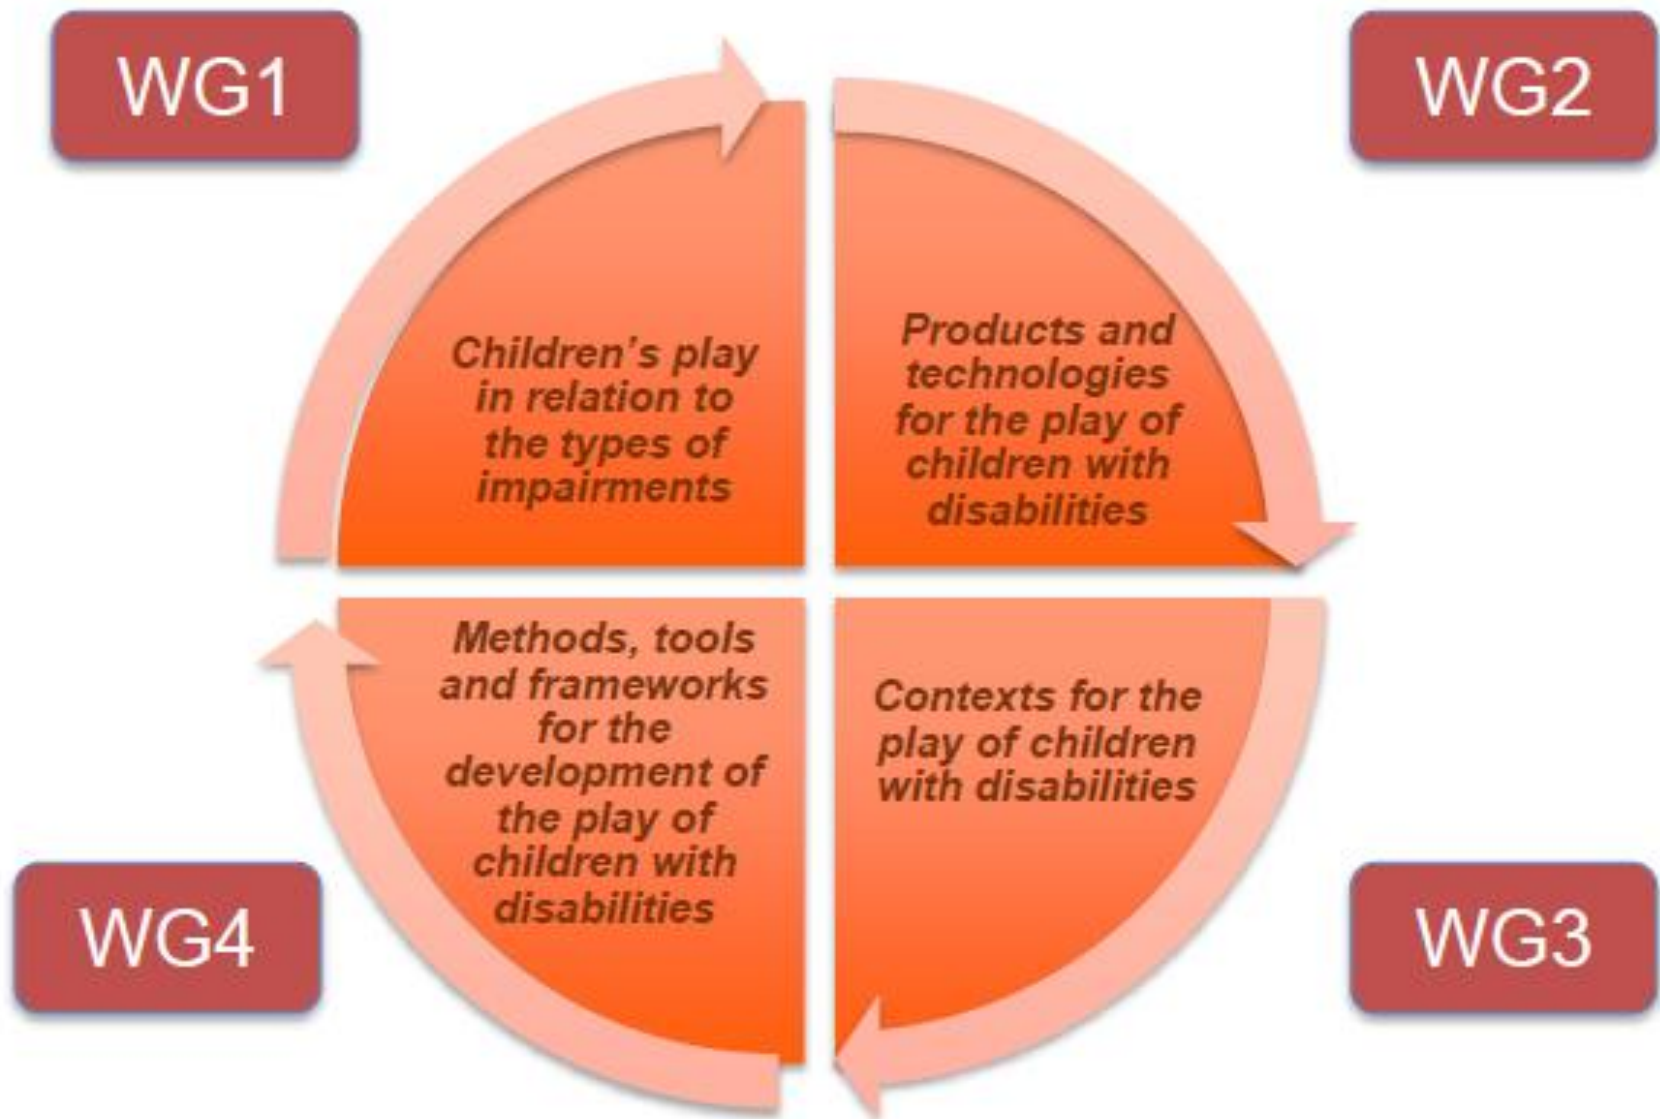

LUDI is financed within the European COST framework (2014-2018)

Play for the sake of play

Ensure equity, awareness and visibility
regarding play and disability

Put play in the middle!

Re-think, re-build the society as a
complex, interdependent and
coherent system of multiple different
ways of functioning, needs and
possible answers

Final goal

Guidelines for the design and evaluation of the accessibility and usability of toys and technology

Models for intervention in inclusive contexts

Theoretical models descriptive of the development & evaluation of the play of children with disabilities

Final Products

Training model to support play of children with disabilities in inclusive contexts and on strategies of intervention (methods and tools)

Guidelines for the play of children with disabilities.

Methodologies, tools, contexts, relationships
